

CS 4523: Senior Projects in Computer Science (DPII)

Fall 2006

Prof. Strauss, CCP
Office: LC123

Phone x-3308

E-mail: fstrauss@poly.edu

Project proposal

The project proposal is due: 9/27/2004

Format

The project proposal consists of the following two pieces of information:

Cover Page with the following information:

Course:	CS 4523
Semester:	Spring 2006
Advisor:	Professor Strauss

Project Name:	
Team members:	Name, Student ID, utopia email of each team member

Project description: 3 to 5 page description including project motivation, proposed project, and deliverables

Project deliverables

As specified in the course syllabus (due dates are in the syllabus) project deliverables are:

Project proposal

Software Project Management Plan (SPMP)

Software Analysis/Requirements Specification (RAS)

Software Design Document (SDD)

Implementation and Demonstration (code and full documentation)

Presentation

Laboratory for Software Engineering (Parallel and Distributed Computing):

Programming assignments will be carried out in our **Software Engineering Laboratory (SEL) and Parallel and Distributed Computing Laboratory (PDC)**. All students registered in the course will receive accounts in the laboratory. Your accounts on PDC-lab are: user name = utopia email address up to the @ sign, password = student ID. Your accounts on the Oracle DBMS are: user name = utopia email address up to the @ sign, password = Ostudent ID (letter O followed by your student ID). The laboratory is located in RH 223 and RH 221, respectively.
